Bud,

on January 15th, I signed the last of the oversight inspection reports from Fall. You were cc'd and should have received copies of them. If there are any that you don't have, please let me know. In the oversights, we found that 4 of the 5 reports were sufficient. The 5th was missing a narrative and pictures of the walk through portion of the inspection.

I also wanted to provide you our comments on your CAFO FIELD PROCEDURES MANUAL, the Livestock Facility Inspection Checklist, and the Standard Operation Procedures for Addressing Citizen Complaints.

Please let me know if you have any question or would like to discuss.
